- <sup>1</sup> Varies with user weight, terrain type, battery amp-hour (AH), battery charge, battery condition and tyre condition. These specifications can be subject to a variance of (+/- 10%).
- <sup>2</sup> Due to manufacturing tolerances and continual product improvement, this specification can be subject to a variance of (+ or - 3%).
- <sup>3</sup> Battery weight may vary based on manufacturer.

**NOTE: All specifications subject to change without notice.**

The information contained herein is correct at the time of publication; due to Pride's commitment to constant improvement and development, we reserve the right to alter specifications without prior notice. Theoretical range is calculated under test conditions in accordance with European standards. Actual range in normal use will depend on many factors, including the condition of the vehicle and its batteries, the weight of the driver, correct tyre pressures, ambient temperature, and the gradient and surface of the road or pavement. Dimensions listed are for power base only. Overall measurements will vary based on seating and accessory selections.
